Product Information Sheet:

Super Green *All Purpose Cleaner and Degreaser*

CCD-146

Hardsurface Cleaners

Features:

- NATURAL BASED
- BIODEGRADABLE
- NON HAZARDOUS
- NON CHLORINATED
- NON REGULATED AND NON WHMIS
- NON TOXIC
- NON COMBUSTIBLE
- CONTAINS NO DANGEROUS CHEMICALS OR ADDITIVES
- NON CARCINOGENIC
- NOT REGULATED UNDER THE FOLLOWING:

- A) Clean Water Act
- B) Clean Air Act
- C) Right to Know Act

Benefits:

Super Green is the safest, environmentally responsible, non flammable, degreaser/cleaner available for the industrial and institutional market. **Super Green** is fully biodegradable, very low aquatic toxicity and non ozone depleting.

The proposed Consumer Liability Act will require producers to label their products regarding flammability, fish kill and other hazardous ingredients. Due to the non hazardous, non flammable and non toxic properties in **Super Green**, no labelling will be required.

The major ingredient in **Super Green** is a naturally occurring degreaser made from trees and plants. It comes from nature and will not harm the environment, including air, water and land. It is so powerful, it is used in concentrated industrial solvents and cleaners to clean oil drilling equipment degrease metal and engines and engine parts.

Super Green is designed to moderate solvent properties and can be used safely around the house, home and shop. **Super Green** is a concentrated institutional product that can be further diluted with water to clean:

Pricing is FOB Huntsville, ON

Proportioner Systems. Proportioner systems are available if required. The proportioner systems provide flexibility for end users in that they are linkable to each other and into a single water intake. As such you are able to set up a series of proportioners to access more than one product and/or the same product (i.e. Super Green) present to difference dilution rates.

One product proportioner	\$190.80
Two product proportioner	\$250.85

Three product proportioners are also available.

Installation costs are included.
